Michel Dupuy announces contribution for Théâtre Espace Go

MONTREAL, May 9, 1994 The Minister of Canadian Heritage, the Honourable Michel Dupuy, today announced a contribution for Théâtre Espace GO so that it can build a new theatre and incorporate the Théâtre Petit à Petit into its new premises.

"I am pleased that this assistance will make Espace GO better able to bring its excellence and bold artistic productions to Quebecers and Canadians. It had become essential for a cultural institution of this size to have suitable facilities that meet minimum visitor and production standards. Thanks to the Espace GO project, more Canadians will now be able to enjoy the creativity of our homegrown artists," said Mr. Dupuy.

The Théâtre Espace GO plays a unique role in terms of creativity and innovation in the theatre. The Government of Canada therefore provided a financial contribution of $1,710,000 broken down as follows: $1,620,000 to build the new theatre, and $90,000 to bring the Théâtre Petit à Petit onto the premises.

This contribution is administered under the Cultural Initiatives Program of the Department of Canadian Heritage, which has made financial assistance available to more than 2,400 cultural organizations for management improvement and capital projects, festivals and special events.
